Web Technologies: Vercel, REST APIs, ReactJS, Redux

Database Management: Oracle DB, MySQL

Developer Tools: Git, GitHub, Microsoft Office Suite (Word, PowerPoint, Excel, Outlook), Visual Studio Code, IntelliJ

SOFT SKILLS

Communication & Collaboration

Problem solving & Analysis

Adaptability & Resilience

Leadership & Initiative

PROJECTS

NEWS MANIA, *ReactJs, HTML, CSS, Client-Server Architecture*

- Developed a React-based news application that fetches and displays news articles from an external API. The application renders each news item in a styled card format using HTML and CSS, incorporating pagination for user-friendly browsing experience.

EMI CALCULATOR, *ReactJs, HTML, CSS, Client-Server Architecture*

- Developed and built an EMI calculator app with React, featuring user authentication and data management. The app allows users to input loan details visualize options using range bars for amount, duration, and interest rates, and provides personalized calculations based on user data, including existing and potential loans.
